FORM LGT-2(S)  
(6-17-68)U.S. DEPARTMENT OF COMMERCE  
BUREAU OF THE CENSUS**SURVEY OF  
WORK EXPERIENCE OF  
YOUNG MEN AND WOMEN**  
School Survey**NOTICE** - Your report to the Census Bureau is confidential by law (Title 13 U.S. Code). It may be seen only by sworn Census employees and may be used only for statistical purposes.

Dear Sir:

The Bureau of the Census is conducting a survey for the Manpower Administration of the U.S. Department of Labor on the labor force behavior of a national sample of young men and women between the ages of 14 and 24.

The purpose of the survey is to obtain information about young people who have recently entered the labor force or who are planning to begin working soon - their education and training, their work experience, their future educational and professional plans. As an important part of this study, information is needed about the academic performance of the respondents of this survey, as well as about the programs and facilities of the high schools they have attended.

Some of the respondents of the survey have attended your school. These respondents, or their parents in the case of minor children, have provided us with signed forms, which are enclosed, authorizing your school to provide this information to the Bureau of the Census. Each student's name and the year he attended your school is shown in the column heading for questions 11-14 of the enclosed questionnaire. We would appreciate your completing this questionnaire, providing the requested information about the school and the designated students. The data you provide will be used, in conjunction with the information supplied earlier by the individual respondents, to develop programs to help counsel young men and women on education and job opportunities and to predict future employment patterns.

All information provided to the Bureau of the Census must be held in strict confidence and only statistical summaries will be published. No student, school or school district will be identifiable from any reports issued as a result of this study.

In answering questions where the answer may vary from year to year, such as the number of students enrolled, please use June 1968 as the reference date.

We recognize that it may be difficult to provide exact answers to all of the questions. For such cases, please give us your best estimate. If the information is not available and you feel a reasonable estimate cannot be made, please write "Don't know" in the answer space.

Please complete and return the questionnaire within five days in the enclosed envelope, which requires no postage.

Your cooperation in this survey will be greatly appreciated.

Sincerely yours,

*A. Ross Eckler*A. Ross Eckler
